

Photoshop Assignment

This assignments are conducted to check your photoshop skill, both of the assignment involves basic image manipulation.

Assignment 1

Make a believable composition using given three images, in a dimension of 1200*800 pixels. The composition should be created in a way that the house is situated “behind” any of the first tree. Place the couple into the composition and change the colour of dress from white to rose for boy and blue for female.

Images for reference purpose only, images in original dimensions will be provided separately.

Assignment 2

Make a believable composition using given two images, in a dimension of 800*800 pixels. The image should look like the hand is picking up the card. You should use different transformation tool to achieve the necessary perspective.

Images for reference purpose only, images in original dimensions will be provided separately.
